Developer Accreditation Path

Training and Mentoring

Self-learning
Foundation Training
covers the basics of
Blue Prism
development.

Concludes with a
Consolidation Exercise
that creates an end to
end solution

Mandatory guides
available from the
Portal

Assessment

Consolidation Exercise
solution reviewed by
local Lead Developer
or Blue Prism.

Link through to the
Blue Prism Learning
Management System
(LMS) to take the self-
tests.

Each test contains 10
randomly drawn
multiple choice
questions.

Developer Accreditation Path

Accreditation

Once all the self-tests have been completed and following at least three months practical development experience a developer is prepared for the Developer Accreditation Exam

The exam is delivered online and consists of 60 multiple choice questions covering all development aspects within Blue Prism.

A score of 70% is required to pass with further awards for Merit and Distinction for those who score highly.

For more details see the Developer Accreditation Overview PDF on the Blue Prism Portal.

Basic Awareness

Review New Frontiers in Robotic Automation, How Blue Prism Works and Operating Model

Basic Awareness

The Basic Awareness section provides an introduction to the Blue Prism philosophy and an overview of the Blue Prism product plus associated Operating Model.

Prior to completing the Basic Awareness survey, we recommend that you watch the following videos and study the Operating Model overview. The answers you provide in the Basic Awareness survey will help the Blue Prism team tailor an accreditation programme specifically for you. If you have not enrolled already, please contact the Blue Prism team for information on an accreditation programme.

If you are already enrolled on the Blue Prism accreditation programme and you have not done so already, please complete the [Basic Awareness Survey](#). You will be contacted by the Blue Prism team once you have completed the survey to discuss and agree the optimum accreditation approach.

New Frontiers in Robotic Automation

This video explores how robotic automation is moving into other industries and in particular the back office of the services industry.

How Blue Prism Works

Dave Moss, CTO and Co-founder of Blue Prism introduces the Blue Prism Robotic Automation Software Platform and provides a demonstration of how the technology is used.

Operating Model

The Blue Prism Operating Model describes all the stages required to successfully deliver automated processes into a production environment.

Basic Awareness

Once you have reviewed the Basic Awareness material click through to the Learning Management System (LMS) to take the Basic Awareness Survey

Learning Management System

The LMS will open in your browser. The first time you access the LMS you will be asked to provide some basic details. These details will be migrated to our exam provider Pearson Vue. You will need government issued identification to sit a Blue Prism exam so please make sure the details you capture here match your ID.

The screenshot shows the Blue Prism LMS user profile page. On the left is a dark blue sidebar with a hamburger menu icon and a magnifying glass icon. The main content area has a light blue header with the 'blueprism' logo and a 'Sign Out' button with a power icon. Below the header is a home button with a house icon. The section is titled 'Additional fields' and contains five form fields: 'First name' (text input with a user icon), 'Last name' (text input), 'Organization *' (text input), 'Company based in: *' (dropdown menu showing '- No value -'), and 'Job / Role Title *' (text input). A green 'Save changes' button is located below the form fields. At the bottom of the page is a dark blue footer bar containing 'Privacy Policy' and '© Powered by Docebo'.

Self Tests

The LMS will also host the self-tests. You can link through from the Developer Accreditation page

Developer Accreditation

The Developer Accreditation Program provides a learning path to a development standard recognised by Blue Prism and its increasing customer base.

Blue Prism appreciates the importance of a skilled developer network and offers developers the opportunity of formal accreditation supported by a prescribed accreditation path. Following the completion of the mandatory courses, tutorials and guides a developer typically needs 3 months hands-on development experience in order to acquire the knowledge and experience to successfully pass the exam.

Trainee Blue Prism Developers please [click here](#) to go to our Learning Management System (LMS) to access further training material and self-tests. **Only Internet Explorer and Chrome browsers are supported.** Those who registered prior to 13th June 2016 will not have an associated account in our LMS system and will need to log out and create a new Blue Prism Portal account.

Accreditation Exams The documents below describe the exam scope and recommended preparation. For details of how to register for exams, exam fees and accommodations please review the "Blue Prism Accreditation - Sitting an Exam" document below. To register for an exam go directly to [Pearson Vue](#).
